

Besim Fazil Agargun, MD

Istanbul University – Istanbul Faculty of Medicine, Division of Gastroenterology & Hepatology, Istanbul, Türkiye

bfigargun@istanbul.edu.tr · besimagargun.com

PROFILE

Final-year gastroenterology and hepatology fellow with a focused academic profile in inflammatory bowel disease (IBD), AI- and data-driven clinical research, and metabolic liver disease. Scientific lead of a >11,000-report NLP endoscopy programme and coordinating investigator of the ELASTIBD elastography study; late-breaking oral presenter at UEG Week. Committed to building research-integrated IBD care and lasting European collaborations.

EDUCATION & TRAINING

PhD in Clinical Trials	Istanbul University	2026 – present
Subspecialty Training in Gastroenterology & Hepatology	Istanbul University	2024 – present
Residency in Internal Medicine	Istanbul University	2018 – 2022
Doctor of Medicine (MD)	Istanbul University	2012 – 2018

RESEARCH LEADERSHIP & HIGHLIGHTS

- **Scientific lead**, AI-based colonoscopy NLP project (>11,000 reports) — automated bowel-preparation classification and its association with adenoma detection.
- **Coordinating investigator**, ELASTIBD — transient elastography of liver fibrosis and steatosis in IBD (first-author, *Hepatology Research* 2026, Q1).
- **Project lead**, multicentre national IBD research collaborations (epidemiology and biomarker studies), overseeing study design and data acquisition.

Bibliometrics: 18 PubMed-indexed publications · 8 in Q1 · cumulative JCR impact factor >50 · h-index 5 · 6 first/last-author · 5 corresponding-author.

SELECTED PEER-REVIEWED PUBLICATIONS

1. **Ağargün BF**, et al. Liver fibrosis and steatosis in inflammatory bowel disease: a cross-sectional matched-control transient elastography study (ELASTIBD). *Hepatology Research*. 2026. (Q1)
2. Akyüz F, **Ağargün BF**, et al. Trends in inflammatory bowel disease across a Eurasian crossroad: a decade of multicentre data. *Journal of Clinical Gastroenterology*. 2025. (Q2)
3. Bektaş M, İnce B, **Ağargün BF**, et al. Characteristics and course of AA amyloidosis: single-centre experience with 174 patients. *Rheumatology (Oxford)*. 2024. (Q1)
4. Amikishiyev S, **Ağargün BF**, et al. Criteria for hyperinflammation in COVID-19: analysis of two pandemic-era cohorts. *Arthritis & Rheumatology*. 2023. (Q1)
5. Bektaş M, Çavuş B, **Ağargün BF**, et al. Transient elastography measurements of the liver and transplanted kidney in patients with AA amyloidosis: a cross-sectional comparative study. *Rheumatology International*. 2025. (Q2)
Letters to the Editor in *Gastroenterology*, *Gut*, and the *Journal of Hepatology*.

ACADEMIC SERVICE & ENGAGEMENT

- **Peer reviewer**: American Journal of Gastroenterology (AJG), Inflammatory Bowel Diseases (IBD), Journal of Clinical Gastroenterology (JCG).
- **UEG Week 2025, Berlin — Late-Breaking Oral Presentation**: NLP-based classification of bowel-preparation quality and adenoma detection in >11,000 colonoscopy reports.
- Moderator and lead presenter in 20+ journal clubs and departmental academic sessions.

CLINICAL SKILLS, INTERESTS & LANGUAGES

Clinical: Complex IBD management · IBUS · transient elastography · diagnostic and therapeutic endoscopy.

Interests: IBD · AI in endoscopy · NLP / real-world data · clinical trials · transient elastography · MASLD.

Languages: Turkish (native) · English (C1–C2).
